

# *Unity Consciousness Workshop*

## *September/October 2009 Newsletter*

Dearest Family-in-Spirit,

Last year, Archangel Gabriel took over the role of over-lighting our UCW Family from Archangel Michael. Gabriel is the Archangel renowned for his involvement in making some very famous announcements! He is the Chief Messenger and in charge of Communication! He asked me to write a newsletter about the Language of Light. I have been interested in the Language of Light for many years. It is such an incredibly vast subject that I didn't know how to begin writing a concise newsletter. Archangel Gabriel told me, "Just Make A Start and Trust that you will know what you need to know when you need to know it!"

So, I made a start and began Re-Searching information on the internet about the Language of Light. Then, something amazing happened! I found that I was channeling a Guide from the Galaxy of Andromeda! This shook me up as I have always channelled the Angelic Realm. To tell the truth, the concept of Extra Terrestrials has often spooked me! I had to overcome this "fear" in order to channel successfully. The more I opened up to the Andromedan Guide, the more comfortable I felt with this gentle Light Being and soon I began to receive help and inspiration from The Pleadians, Arcturians and Sirians. Wow! I would like to refer to these guides as "Extra Celestials" who are our Galactic Friends and Neighbours!

All this has been a b-lesson in encouraging me to Re-Evaluate what I believe about Reality. We are only limited by our own belief system, which is often compromised when we are children, by limited thinking within the society and culture that we grow up in.

One of The Collective Masters, Lady Kwan Yin, has been helping me to achieve the right state of mind to channel our Guide from Andromeda. She has been teaching me to relax my mind by contemplating "rest"; contemplating "peace" and contemplating "serenity". This exercise in relaxing the mind changes the brain-wave patterns making it easier to be receptive in order to channel incoming information. At last, I feel confident enough to write about the Language of Light! Any "seeming" delays and challenges have simply served to give me time to practice and the Op-Port-Unity to improve my channeling. I have been challenged to broaden my horizon; requiring more of myself – widening my perceptions. I am now successfully channeling our new found Andromedan friend whom I would like to identify as Adoman.

Adoman began by saying that,

“Everything is encoded with the Language of Light including Human DNA”.

Adoman explained the Language of Light as follows.

When computer programmers want to create a programme to carry out a specific function they use a “programming language”. There are many programming languages used in computer programmes such as C Sharp, Axum, Oxygene, NET.DOS, Scala and Windows to name but a few. Everything in the programme is encoded with the programming language so that the programme runs according to the programmer’s requirements. Whether the programme is used for something as simple as sorting envelopes in the mail office or for something as complicated as creating computer graphic special effects for a SCI – FI movie, the Programmer has to programme every meticulous detail using a suitable programming language to create a Working Reality from an original blueprint.

In a similar way, the Creator has to programme every meticulous detail using the Language of Light programming language to create the Physical 3D Reality that is our Universe from an original blueprint.

The Language of Light programming language is a language of “thought-forms” rather than letters. Many years ago, Re-Searchers noticed the similarity between brain wave patterns and Hebrew Letters. Hebrew is one of the oldest written languages in the world and is thought to have evolved from an even older language called Hiburu. Hiburu is very ancient indeed and some believe its origins are Extra-Terrestrial. Myth and legend states that Hiburu was given to Humanity by “those who came from the Skies” ..... “the Gods” ..... “the ETs”.

Encoding Glyphs similar to the Hebrew letters and transformational symbols blend with musical tones and colour to help Humanity awaken to their Highest Good. This is all part of the Creational blueprint that fits into the “Sacred Geometry Matrix of Grids”. Thought-forms, patterns, symbols, colours, tones are encodings that represent the Divine Blueprint of Creation.

The Language of Light is known by many names and is sometimes referred to as the Alphabet of the Ark and Archangelic Flame Script. All are encodings of sorts. Much of the information about the Language of Light is channelled from Thoth. Thoth is the Egyptian God who is renowned for being the Great Scribe. His expertise is in language and geometry. Perfect for Programming the Reality!

To Summarize:-

*Language of Light =  
Software*

*Matrix of Geometric Grids and Ley-Lines including the  
Aura, Vital Energy Field including the Chakras and Energy  
Channels within the human body =  
Hardware*

*Source =  
Programmer*

*3D Universe =  
Programme*

Gabriel says that it is not necessary to be “psychic” or “especially sensitive” to receive communication from Higher Frequencies of the Unity Consciousness. Whenever you get an idea, a concept, a creative inspiration, a thought-form that resonates within you and excites you, you are receiving a communication from Higher aspects. This guidance comes to you in the form of a “thought – form” or “concept”.

Gabriel wants to make you aware that worldly aspects of yourself communicate with each other using the Language of Light. Do you ever get the feeling that you fancy some pineapple for lunch? Your physical aspect is communicating with your mental aspect using the Language of Light to “request” the nutrition it needs. The brain, with its vast knowledge, interprets this “request” and works out that Pineapple would be the ideal source of the particular nutrient required. So, different 3D aspects of yourself communicate using the Language of Light as well as different aspects of your Multi-Dimensional Self.

*We are all Light and we are All Light.*

The Language of Light is filled with Healing Thought-Forms. There are three kinds of thought-forms that we experience here in the 3D. Positive, Negative and Healing thought-forms. Positive and Negative thought-forms are part of the Duality Programme that we are experiencing here in the 3D whereas Healing thought-forms are Pure Language of Light – straight from the Unity Consciousness – straight from Source.

Positive and negative thoughts are often about things that have happened in the past or that might happen in the future. Healing thought-forms are always in the NOW.

When we entertain positive or negative thought-forms that create Energy - **motions** within us, then we add to the Duality or Imbalance. This imbalance makes us think further positive or negative thoughts and we get ourselves into a vicious circle that continues to further imbalance our physical, mental and emotional selves.

As well as absorbing thought-forms, we also radiate out thought-forms. Our own thought-forms have tremendous power to create our own personal Reality and so we spend much of our time creating Imbalance and exaggerating the Duality within us. We create our own Imbalance and our own Chaos.

Imagine that the whole of Humanity is doing this?  
The estimated Human population of the Earth is something like 9 billion people?  
How many positive and negative thought-forms do you personally entertain every day?  
Multiply that by 9 billion?

It's easy to see why we live in a world of drama; chaos created by our own positive and negative thought-forms .....distorting the original blueprint programme of the Divine Language of Light.

Gabriel is asking us to change our attitude from Spiritual Apprentices to that of Spiritual Masters. To monitor our thought-forms. To try to only entertain the Pure thought-forms of the Divine Language of Light. In this way, we align ourselves with the Higher Realms. We focus on unity, harmony and balance rather than duality, chaos and imbalance. Don't waste your tremendous Creative Power.

Gabriel knows this is much easier said than done! However, like at the beginning of this newsletter, he asks us to ""Just Make A Start and Trust that you will know what you need to know when you need to know it!"

We can begin by **Intending** to use the Pure language of Light thought-forms in our every-day lives. Your Energy follows your Intentions/Focus.

The first trick to successfully tapping into the Language of Light is learning to recognize the difference between positive, negative and healing thought-forms. This requires you to monitor your waking mind – your conscious mind. By gradually using more and more healing thought-forms, you are tapping into the Creators programming language to be able to programme your own experience here in the 3D.

The second trick is, once you have identified a positive or negative thought-form, then catch it and don't let your mind jump on the band-wagon. Don't follow positive or negative trains of thought. Self- Observe and Self- Monitor.

The third trick is to remember that only NOW is really real. Time is an illusion. Past and Future are part of the duality programming that distort the Truth.....Time is a Universal Special Effect! Try to think only about the present moment. Any thoughts that come up about the past or future are illusions.

By harnessing Healing thought-forms of the Divine Language of Light, you are focusing your Energy.....creating everything you truly need in your Divine Programme.....and using your Intentions to live in alignment with your Highest Good with Grace and Ease.

**Adoman is explaining that the Programmer programmed the programme to always deliver our Highest Good.**

**The Divine Language of Light programme is Heaven on Earth.**

**That always was, always is and always will be the Original Divine Blueprint for the Earth.**

We distort the pure Language of Light of the programme with our imbalanced thought-forms. Archangel Michael tells us that "Wanting" is one of the biggest distortions of the Divine Plan. "Wanting" things to be one way or another according to your own Personality Ego's limited point of view means that you are blocking the Divine Plan.

It's very funny really! We humans have such a small, limited view of things but when we are trying to sort out our own seeming "problems", we often think that we could show God a better way of doing things! Ha! Ha! ☺

Remember how much Eve "wanted" to take a big bite out of that big ole' apple? Even though the Divine Programmer had clearly defined to her that eating that apple wasn't part of the programme. Have you ever thought that the apple wasn't the real problem? Maybe the real problem was Eve's "wanting" to go against the defined parameters of the Programme?

The minute you stop "wanting" and just

***ACCEPT***

that everything is just the way it is supposed to be, then you find yourself swimming with the programme of the Divine Language of Light. You begin to live in the Heaven on Earth Programme as Programmed by the Programmer.

Adoman has also helped me to understand more about how thought-forms travel and how the Language of Light actually programmes our Reality. Thought-forms are continually flowing not just in and out of our brains/minds but actually flowing through everything. In the UCW Teachings, Archangel Michael calls them “**THOUGHTONS**”. Just like within an atom we have proton, neutrons and electrons, our thoughts are actually particles! A photon particle to be precise! A particle of Light!

### *Reality is all Light and I am All Light.*

These “Thoughtons” move around our Electro - Magnetic Energy Body in and out of our **Chakras**. The Thoughtons, photons of light, vibrate at many different frequencies but, for simplicity of understanding, Adoman explains that the Thoughtons of the Divine Language of Light vibrate according to The Seven Colours of the Rainbow.

Adoman refers to them as

“The Seven Channels of the Language of Light”.

Seven Colours. Seven Channels. Seven Frequencies. Seven Vibrations. Seven Sounds. Seven Chakras. Seven Rivers of Light.

Imagine, the Language of Light from Source (White Light) shines through a Prism and is split into Seven Channels. The programming language is split into Seven Channels to form our Universe – the manifest physical reality.

It’s all about Electro-Magnetism. Energy.

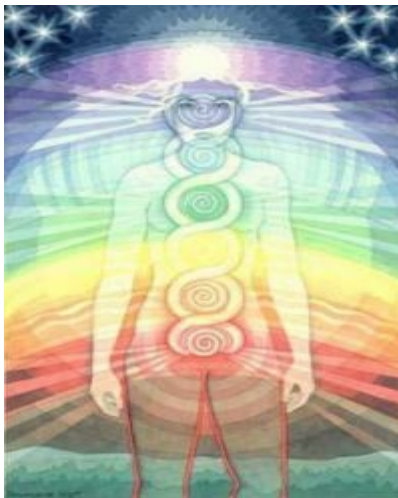

Everything is split into Seven Channels, of seven different frequencies and this manifests in our Chakra System.

Thoughtons moving at the lowest Red frequency, at the Base Chakra, will create/programme/magnetize our experience in terms of home, security, financial situations etc. Thoughtons moving at the Orange Frequency, at the Sacral Chakra, will form our relationships, sexuality and so on. Thoughtons at the Throat Chakra will script the conversations we have with ourselves and others. Thoughtons at the Crown Chakra will define our connection to the Unity Consciousness.

You can imagine that each Chakra projects a programme for you to experience onto your “Life’s Screen”.

Through Self-Observation and Self-Monitoring, we become aware of our choices. We discover what we truly need rather than want. Do you pander to the limited point of view of your Personality Ego or do you make choices that resonate with your Highest Self – your Original Divine programme? It's our own choice whether we allow the Pure Language of Light Thoughtons of the Divine to flow through our Chakra System to create our Heaven on Earth. Or we can choose to distort the Heaven on Earth Programme with our own "wantings" which create imbalances and blockages within our Chakra Systems.

If we allow the Original Language of Light programme to flow freely through open Chakras, we attract our Highest Good towards us.  
We can live in the Original Programme.  
We can manifest Heaven on Earth.

This is the way the Language of Light programme is MEANT to work!

With his enlightening explanation of the importance of the Chakras in manifesting our Reality, Adoman has revealed to us why the Masters of Light have organized The Seven Rivers of Life Workshop.

This concept of the Chakras "projecting" our life and our reality onto our Life's screen has really grabbed my attention! I hadn't realized, up to this point, just how important the Chakras are in our very existence! I suppose that I had always thought that my Chakras belonged to me.....but, in actual fact, I belong to my Chakras! I am a product of my Energy Body and my Chakras. My whole life experience is a product of my Energy Body and my Chakras.

# *Everything is created by the Language of Light.*

If the Chakras are clear and open, you can “project” your Original Heaven On Earth programme efficiently and create your outer world so that you can live your Divine Plan. However, if the Chakras are blocked or closed, you cannot possibly “download” your Divine Light properly into the outer world and you find that you are living out of alignment with your Highest Good.

Be aware that each challenge or problem you attract into your life only serves to try to bring your attention to a blockage so that you can clear this blockage and return to the original programme. What appear to be challenges and problems are a “fail safe” within the programme to get you back on path. By identifying which issues you are dealing with in your life right now, you can identify which are the related chakras and begin the process of clearing those chakras to allow the Divine programme to flow through you.

So, if you can clear all Seven Chakras, then you are going a long way to transforming your reality and attracting your Divine Life - programming your outer world to reflect your Divine Plan. Attracting situations, people and places that are all part of your Divine Plan. Creating your own Heaven on Earth.

You are also going a long way to clearing the issues for the whole of Humanity; the whole of the Earth; the whole of the Universe and so on in a huge domino rolling or expanding wave effect.

Our UCW Logo

Studying your Chakras can show you where your Focus needs to be; to guide you where to Channel your energy and to harness your Power as a Co-Creator by allowing the Language of Light to flow through you undistorted.

When the Masters of Light first told me about The Seven Rivers of Light workshop in the Summer of 2009, I was excited but it is only now that I understand the full implications and significance of the work they are planning for our Chakra System. Especially working in such a special location as Whalley Abbey.

As we approach 2012, the Language of Light is flowing at a Peak from Great Central Source to the Milky Way and to the Earth. This is our greatest Op-port-Unity to Shine the Light of Central Source through our Chakras out into the 3D to manifest Heaven on Earth.

Archangel Michael and The Collective Masters of Light decreed that 2010 is the Year of Brilliance. The Year for us to Shine. The Year for us to beam out those Creative Thoughtons into the 3D to Manifest Heaven on Earth.

I'm attending The Seven Rivers of Light Workshop as a Re-Searcher as well as a Facilitator because with Adoman's teachings on the importance of the Chakras, I believe that I need to do as much as I can to be a channel for the Divine. After learning what Adoman has to say about how the Chakras project/programme/magnetize our reality, working on my Chakras will be a tremendously exciting and fulfilling experience. I very much hope that you are excited by what you have read here and that you will join us at the Workshop in July, 2010 at Whalley Abbey.

## *Message from Adoman*

*Be!*

As always, with the UCW, you are encouraged to use your own intuition to interpret teachings and messages to discover what they mean to you personally.

My interpretation is as follows. Our Chakra System is most balanced when we focus on just "be-ing" rather than "having, doing, trying or wanting" etc. We are at our most pure and balanced when we are just "being" ourselves. We are closest to our Divine Programming when we are not "trying" or "wanting" to be something else.

## *Further along the Spiral*

Thank You for giving your attention and interest to the Unity Consciousness Workshop. Your Loving Energy contributes to the Co-Creation of Our Next Light Work Session at The Seven Rivers of Light Workshop and Retreat where we are called as a Family-in-Light into Highest Service. If you feel drawn or are guided to attend this Workshop/Retreat, please contact me for further details. The Workshop alone requires an investment of £345.67 and the Residential Retreat requires an extra investment of £222. 22 which makes a total package of £567.89.

In Highest Service with You, in Unity Consciousness,

**Lizzie xxx**

*PS If you are interested in learning more about the Language of Light itself, I recommend The Book of Knowledge: The Keys of Enoch by JJ Hurtak.*
